|                              |              |
|                              |              |
|                              |              |

## 1. BUSINESS IDEA

Name of the business: RaastaCalm XR (RCX)

Type of business:

☐ Manufacturer    ☒ Service operator    ☐ Retailer    ☐ Wholesaler    ☐ Other: \_\_\_\_\_

The business is going to produce the following products: Gaze-stable AR micro-rituals and VR Stillness Pods

The customers will be: Students, young professionals, and commuters facing daily burnout

The business will sell in the following ways: B2B2C model via site licensing and pod leasing

The business will satisfy the following needs of the customers: On-the-go mental reset, anxiety reduction, and commute stress relief

My personal motivation to retain this business idea: Addressing the gap where traditional mental health apps fail to support users during high-stress transit moments

## 2.1 MARKET RESEARCH

| Products              | Customers             | Needs and preferences of customers | Competitors                                      | Gaps (that competitors have not fulfilled)          |
|-----------------------|-----------------------|------------------------------------|--------------------------------------------------|-----------------------------------------------------|
| Product 1: AR Service | Commuters             | Movement-friendly grounding        | Apps currently require stationary use            | Very less people in market with no marketing at all |
| Product 2: VR Pods    | Campus/Office workers | Immersive stillness                | Lack of private "retreat" spaces in crowded hubs | None exist on ground                                |
| Product 3: N/A        |                       |                                    |                                                  |                                                     |
| Product 4: N/A        |                       |                                    |                                                  |                                                     |
|                       |                       |                                    |                                                  |                                                     |
|                       |                       |                                    |                                                  |                                                     |

## 2.2 MARKETING PLAN

### Product

| Good, service or range of products: |                                                            |          |          |          |
|-------------------------------------|------------------------------------------------------------|----------|----------|----------|
|                                     | 1. _____                                                   | 2. _____ | 3. _____ | 4. _____ |
| <b>Quality</b>                      | Clinically-crafted exposure plans with habit tracking.     |          |          |          |
| <b>Colour</b>                       | Black and White                                            |          |          |          |
| <b>Size</b>                         | Handheld size                                              |          |          |          |
| <b>Packaging</b>                    | Integrated hardware (Stillness Pods) retrofitted into hubs |          |          |          |
| <b>Certification</b>                | Measurable shifts in GAD-7 and PHQ-9 clinical indicators.  |          |          |          |
|                                     |                                                            |          |          |          |
|                                     |                                                            |          |          |          |
|                                     |                                                            |          |          |          |

## 2.3 MARKETING PLAN

### Price

| Good, service or range of products:                       |                                                                           |          |          |          |
|-----------------------------------------------------------|---------------------------------------------------------------------------|----------|----------|----------|
|                                                           | 1. _____                                                                  | 2. _____ | 3. _____ | 4. _____ |
| <b>Cost</b>                                               | Low-cost AR deployment (using existing smartphones).                      |          |          |          |
| <b>The price that customers are willing to pay</b>        | Budget friendly                                                           |          |          |          |
| <b>Competitors' prices</b>                                | One time high price                                                       |          |          |          |
| <b>Price</b>                                              | Subscription licensing for software + leasing fees for physical pods      |          |          |          |
| <b>Reasons for setting this price</b>                     | It feels low compared to one time high price                              |          |          |          |
| <b>Discounts will be given to the following customers</b> | Offered for multi-campus university bundles or long-term corporate leases |          |          |          |
| <b>Reason for giving discounts</b>                        | To appreciate large order customers                                       |          |          |          |
| <b>Credit will be given to the following customers</b>    | Loyal customers                                                           |          |          |          |
| <b>Reason for giving credit</b>                           | To give them sense of feel good                                           |          |          |          |

## 2.4 MARKETING PLAN

### Place

#### Location:

High-traffic transit corridors, university campuses, and office corridors and shopping malls

#### This location is chosen for the following reasons:

These locations target the exact moments where users feel overwhelmed or are in transition

The monthly cost of this location is: \_\_\_\_\_ ( → section 6.3) This cost includes: \_\_\_\_\_

#### Method of distribution:

The business will sell to:

☒ Direct ☐ Retail ☐ Wholesale ☐ Others (please specify): \_\_\_\_\_

#### This method of distribution is chosen for the following reason:

So that our company gets the recognition not the wholeseller etc.

## 2.5 MARKETING PLAN

### Promotion

| Means                                 | Details                                                         | Costs |
|---------------------------------------|-----------------------------------------------------------------|-------|
| <b>Direct marketing</b>               |                                                                 |       |
|                                       | LinkedIn outreach to HR/Wellness managers                       | N/A   |
|                                       |                                                                 |       |
|                                       |                                                                 |       |
| <b>Advertising</b>                    |                                                                 |       |
|                                       | Digital marketing                                               | N/A   |
|                                       |                                                                 |       |
|                                       |                                                                 |       |
| <b>Publicity</b>                      |                                                                 |       |
|                                       | Partnerships with student and employee councils                 | N/A   |
|                                       |                                                                 |       |
|                                       |                                                                 |       |
| <b>Sales promotion</b>                |                                                                 |       |
|                                       | Gamified consistency through "tiny-habit streaks" for end-users | N/A   |
|                                       |                                                                 |       |
|                                       |                                                                 |       |
| Total promotion costs (→ section 6.3) |                                                                 |       |

## 2.6 MARKETING PLAN

### People

| Position        | Recruiting criteria                           | Training plan                       |
|-----------------|-----------------------------------------------|-------------------------------------|
| Tech Lead       | We plan on keeping this position to ourselves | Online Sources and Training         |
| Operations Lead | Previous experience or a relevant degree      | Already have one                    |
| Marketing Agent | Previous experience or a relevant degree      | Will try to hire an experienced one |
|                 |                                               |                                     |
|                 |                                               |                                     |

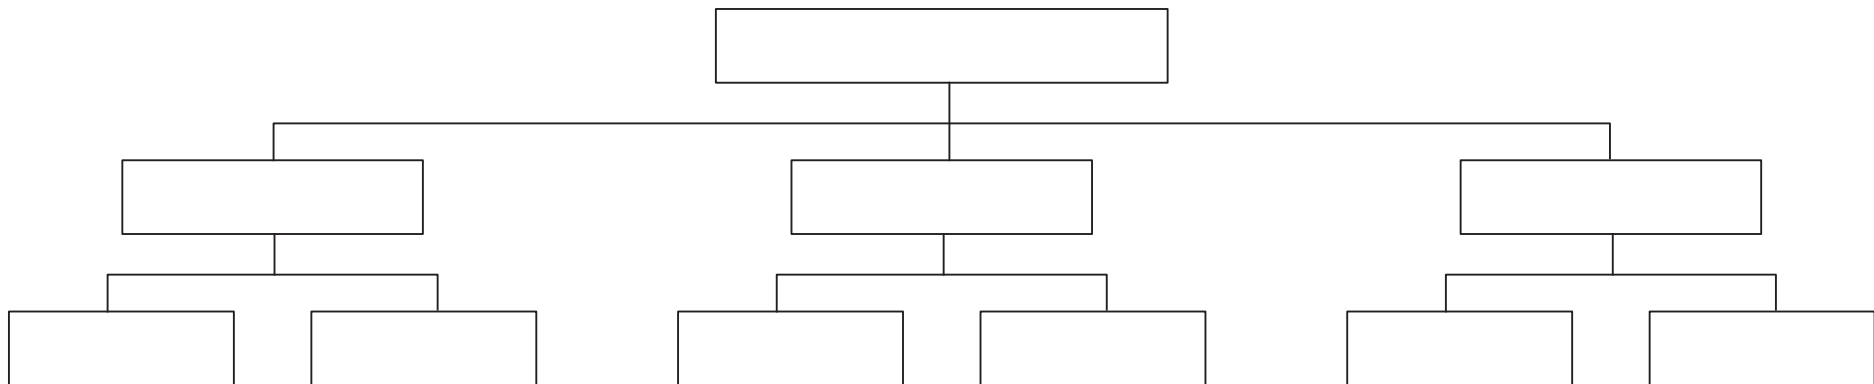

2.7 MARKETING PLAN  
Process

| Steps         | Description                                          |
|---------------|------------------------------------------------------|
| 1. Onboarding | Identify goals (calmness, focus, or energy)          |
| 2. Detection  | Monitor motion and stress events                     |
| 3. Delivery   | AR rituals (2-5 min) or VR Pod sessions (5 min)      |
| 4. Reflection | Summary of emotional metric trends and habit streaks |
| 5.            |                                                      |
| 6.            |                                                      |
| 7.            |                                                      |

2.8 MARKETING PLAN

Physical Evidence

| Physical Evidence                       | Description                                       |
|-----------------------------------------|---------------------------------------------------|
| Office premises and interior decoration | Sound-insulated VR Stillness Pods                 |
| Internet presence and website           | User dashboard displaying stress recovery metrics |
| Packaging                               | Colorful and eye-catching boxes                   |
| Signage                                 | Gaze-stable AR anchors in transit corridors       |
| Employee uniforms                       | Minimalist with our product name and image        |
| Business cards                          | Digital NFC cards                                 |
| Mail boxes, etc.                        | Pamphlets                                         |

| Tasks and responsibilities                                                                      | Position        | Staff         |
|-------------------------------------------------------------------------------------------------|-----------------|---------------|
| 1. XR integration, AR gaze-stable anchor development, and ensuring on-device privacy encryption | Technical Lead  | M. Omar Zahid |
| 2. Managing partnerships with transit authorities and campus operations                         | Operations Lead | M. Abdullah   |
| 3.                                                                                              |                 |               |
| 4.                                                                                              |                 |               |
| 5.                                                                                              |                 |               |
| 6.                                                                                              |                 |               |
| 7.                                                                                              |                 |               |

## 5.1 LEGAL FORM OF BUSINESS

The business will operate as a:

☐ Sole Proprietorship

☒ Partnership Cooperative

☐ Limited Company

☐ Other: \_\_\_\_\_

The reason for choosing this form of business is:

This form allows for the shared technical expertise required for XR development and the operational management needed for physical pod placement

The owners will be:

Name: M. Omar Zahid

Name: M. Abdullah

Position in the business: Tech Lead

Position in the business: Operations Lead

Description of skills: Technology and application development

Description of skills: 3 years of experience in a large firm

Relevant experience: Application development at XYZ company
